### LEONARDO® VS MANUAL STAINING

	LEONARDO®	MANUAL STAINING
<b>Unpack and Play Ready</b> - Leonardo® comes ready to use with nothing to assemble, just plug in, fill the trays and play	✓	N 😞
<b>KwiKey™ Shortcuts</b> - Leonardo® features preprogrammed hot keys for faster command access throughout its slide management software	✓	N 😞
<b>Leonardo® SystemVue™</b> - Interface window allows user to see at a glance system operations and various time and condition details	✓	N 😞
<b>Leonardo® AirFree™ Filtration System</b> - Need to Deoil? Leonardo® incorporates a highly effective air filtration chamber that allows users the ability to deparaphinize slides without noxious odors infiltrating lab settings	✓	N 😞
<b>DryWand™ Automated Drying System</b> - Leonardo® features an incorporated drying station that can dry slides in as little as 15 seconds. Users can program drying times easily and nothing more than a compressed air connection is needed to take advantage of this feature.	✓	N 😞
<b>LeoMail™</b> - Whether you would like to email a portion or your complete data log, Leonardo® incorporates a super easy interface for sharing information	✓	N 😞
<b>Automatic Backups</b> - Never lose data as the Leonardo® intelligent agent will back up all data automatically. Not only will you be able to save all protocols, but all procedure data is also backed up with no effort.	✓	N 😞
<b>Wireless Monitoring Device</b> (optional) - Leonardo® allows you to set up your slides and walk away while having a wireless monitor receive your desired updates throughout the slide runs. Alerts are customizable and arrive via secure WiFi signal.	✓	N 😞
<b>Modify and Run Protocols</b> - Leonardo® allows you to create and modify your protocols in seconds. Editing is even easier as Leonardo™ allows you to insert or delete steps with single key strokes.	✓	N 😞
<b>Slide Holders - More than one size</b> - Users can choose from large to very small slide runs. Slide holders are available in 24x - 5x capacity that allow for effective reagent cost savings.	✓	N 😞
<b>Shaken not Stirred</b> - Leonardo® allows users to include very precise agitation sequences as steps within any protocol. Users can easily modify times and depths to generate desired results.	✓	N 😞
<b>Pause/Resume Feature</b> - As part of Leonardo's intelligent agent, one key benefit is the ability to pause/resume a particular protocol or step. Leonardo® does all the thinking for you.	✓	N 😞
<b>Quality Control Systems</b> - Leonardo® has numerous quality and safety measures built in. From audible notifications & wireless messages, to safety location micro switches, all included for reliable and effective results.	✓	N 😞
<b>Design and Craftsmanship</b> - Leonardo® is made of nearly bullet proof acrylic, 304 stainless steel, polished aluminum, and stainless bolts and fasteners. All wiring connections are hand soldered using high capacity stranded cabling.	✓	N 😞
<b>40+ years of Innovation</b> - That's a lot of experience and innovation. "elja® designs and develops software, hardware, medical devices, automation and diagnostic systems for use in a broad range of the life sciences"...and that's not just our tag line.	✓	N 😞
<b>HammerHead Warranty™</b> - All of the products we design, manufacturer and sell are guaranteed with one of the best warranties in the industry. We offer a 36 month <i>top-to-bottom</i> coverage including technical support and service updates. This is not a service contract, it's included with all of our products.	😊 😊 😊	N 😞
